Thank you for allowing our celiac family the opportunity to serve you. Our own son was diagnosed at age 2. We understand how frustrating it is to find good GF products.

Since then my wife and I, along with many other relatives on both sides of our family, have been diagnosed. This gives each of us a unique and firsthand understanding of the "issues" if our food is cross contaminated.

For the last 22 years we have been active in local and national support groups helping people just like you cope with the frustrations of being on a GF diet. This involvement created an interest for our son, Forrest, to turn his restrictive diet into a high school FFA Entrepreneur project resulting in the 1st domestic source of oats for all of us on a GF diet. We go the extra mile so your bowl of oatmeal or treat is SAFE by;

- Only growing in fields that we personally walk, creating traceability from planting to package
- Certifying every field, combine, and storage bin by the Wyoming Seed Certification Service prior to use
- Personally testing every truck before our raw oats are stored and again prior to entering the mill
- Double testing in our lab with Rida Quick Gliadin and R5 Elisa with re-verification by an independent lab
- Making sure each bag of oats comes from our pedigree non-GMO seed and is processed in a certified GF facility

Knowing how dedicated our family owned company is to your safety, are you comfortable serving anything less to your family? Taste the difference; our oats have a FRESH ROASTED FLAVOR that can only come from a steamed, SHELF STABLE product. Please call us with your questions, whether it's about our company, product information or your GF diet, we would be happy to help you any way we can.

Thank You,

***We live the Gluten-Free life,
it's not just a business!***
